

**TENTATIVE**  
**CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD**  
**CENTRAL VALLEY REGION**  
**ORDER R5-2023-XXXX**  
**RESCINDING VARIOUS WASTE DISCHARGE REQUIREMENTS**

The California Regional Water Quality Control Board, Central Valley Region (Central Valley Water Board), finds that the Board adopted the following Order, which is no longer applicable for the following reasons:

**SACRAMENTO REGIONAL WASTEWATER TREATMENT PLANT, SACRAMENTO REGIONAL COUNTY SANITATION DISTRICT, SACRAMENTO COUNTY WATER AGENCY, MASTER WATER RECLAMATION PERMIT ORDER 97-146**

Master Water Reclamation Permit Order 97-146, adopted on 20 June 1997, prescribes requirements for the treatment and use of disinfected tertiary treated wastewater produced at the Sacramento Regional Wastewater Treatment Plant (SRWTP), specifically from the Water Reclamation Facility (WRF) for use in compliance with Title 22 reclamation criteria. Sacramento Regional County Sanitation District (Regional San) is the owner and operator of the SRWTP, which produces the recycled water. Regional San and the Sacramento County Water Agency administer the Recycled Water Program. Recycled water is used for irrigation of publicly owned areas of residential neighborhoods, parks, streetscapes schools, commercial areas within the City of Elk Grove and at the SRWTP; made available for residential and commercial customers via a Recycled Water Fill Station Program located at SRWTP; and for industrial cooling tower use at the Campbell Power Plant (formerly the SPA Cogen Plant) in Sacramento.

Regional San submitted a Report of Waste Discharge for coverage under the Statewide General Order 2016-0068-DDW, Water Reclamation Requirements for Recycled Water. Regional San has replaced the WRF with a new Tertiary Treatment Facility (TTF) which supplies all Title 22 equivalent recycled water for their Recycled Water Program. The SRWTP, which includes the TTF is regulated under Amending Order R5-2022-0064 adopted on 14 October 2022 and Order R5-2021-0019-01 Amended WDRs/NPDES Permit CA0077682 adopted on 22 April 2021 and amended on 14 October 2022. Administration of the Recycled Water Program has transferred to enrollment under General Order 2016-0068-DDW-R5023, which was issued by the Executive Officer on 30 January 2023. Therefore, it is appropriate to rescind Order 97-146.

IT IS HEREBY ORDERED that the above Order is rescinded as of the date of this Order.

I, PATRICK PULUPA, Executive Officer, do hereby certify the forgoing is a full, true, and correct copy of an Order adopted by the Central Valley Regional Water Quality Control Board, Central Valley Region on XX Month 2023.

**TENTATIVE**
